

Guidelines for technical paper poster presentation at CTRG 2015

- Each presenter will be assigned a board to hold a poster of size 900 mm(width) × 1200 mm (height).
- Top portion of poster should contain the title of the paper with font size not smaller than 90 pt and bold. Next lines in top portion should contain author's name with font size not smaller than 60 pt bold and their affiliation with font size not smaller than 40 pt bold. All the font size are provided for font style Arial/Times New Roman only. For other font styles, presenter can choose equivalent font sizes.
- All main headings must be no smaller than 50 pt bold. Font sizes in subheadings must be no smaller than 40 pt bold. Font sizes in main text must be no smaller than 32 pt. Font size in figure and table titles should be no smaller than 34 pt.
- All letters must be easily readable from a distance of 1.5 m.
- Keep your statements concise and legible. It is suggested that you use about 20% text, 40% graphics and 40% white space on your poster for an effective presentation.
- Poster presenters should print out their presentation materials in advance and bring them to the conference site. On-site printing service is NOT available. Please remember that the posters are set up in a public space. So presenters are responsible for the security of their belongings.
- Posters can be fixed using double-sided tape/board pins. We will prepare tapes/pins for mounting. Use the poster board with your full paper ID attached at the top. Presenters are responsible for promptly removing all material at the end of the session or they will be trashed; and please leave your area in good condition for the next presenter.
